This course examines public opinion and assesses its place in the American political system. It emphasizes both how citizens' thinking about politics is shaped and the role of public opinion in political campaigns, elections, and government. While the course will focus on research on the current state of public opinion, throughout the course we will also discuss historical developments in opinion and its place in politics, including changes that arose with the development of polling and with the advent of television and other new media. We will also consider normative questions, including the role opinion *should* play in American democracy.

The latest/current version of the syllabus is always available on Canvas.

V23.2.0—8/23/2023

Adjustments to readings late in the semester

V23.2.0—11/1/2023

Updated from November 1 forward

Course Requirements and Grades

1. twice-weekly *lecture*,
2. attendance and participation in *section*,
3. a *midterm* exam,
4. a comprehensive *final* exam, and
5. a semester-long public opinion *research project* that includes
 - a written proposal,
 - a research instrument,
 - a summary of preliminary findings, and
 - a final research paper.

Grades will be based on the following breakdown:

Item	Percentage
Section participation	15 percent
Midterm exam	15 percent
Comprehensive final exam	20 percent
Research project	
Proposal	5 percent
Research instrument	10 percent
Summary of preliminary findings	10 percent
Final research paper	25 percent

} 50 percent

You must turn in each component of the research project in order to pass the course.

You are expected to turn in each component on time, though if something comes up you should make an arrangement *in advance if at all possible* with your TA. Assignments turned in late *without prior arrangement* will be given a zero, though you must still submit it and you will receive feedback that you can use as you complete the following components. If you have an extraordinary situation, contact your TA and/or me to discuss it as far in advance as possible!

Readings

There are two required books for this course:

Berinsky, Adam J. (editor). 2020. *New Directions in Public Opinion*. Third Edition. New York: Routledge. ISBN: 978-1-138-48356-9. This book is referred to as “Reader” in the syllabus.

Cramer, Katherine J. 2016. *The Politics of Resentment: Rural Consciousness in Wisconsin and the Rise of Scott Walker*. Chicago: University of Chicago Press. ISBN: 978-0-226-34911-4

Amazon link: <https://www.amazon.com/dp/022634911X/>

Publisher link (30% off electronic copies with code CDDC30):

<https://press.uchicago.edu/ucp/books/book/chicago/P/bo22879533.html>

The books should be available (eventually) from the UVa bookstore and the usual online sources, and are published in hard copy and e-book formats. All other readings for the course are available through Canvas and/or links on the syllabus. Each TA may assign additional required readings over the course of the term.

Sections

Section meetings will provide an opportunity for you to clarify material from the course and to discuss the lectures, readings, and current events. A major focus of section is work on your research project. Your TA may also assign periodic brief written work in or out of section.

Attendance at your weekly section meeting is required. This requirement is reflected, in part, in the 15% of your grade that comes from attendance and active participation in section, and the additional 50% from the research project. If you are ill, we and your fellow students prefer that you *not* attend; otherwise you are expected to be there. If you do miss a section, you are responsible for all the material covered and the research project work that you missed.

Sections *will* meet the first week of class. They will *not* meet on Friday, October 20.

Exams

The midterm and final are multiple choice exams designed to test your attention to lecture and readings. They are closed-book and timed. Each will be administered via Canvas during a window as noted below. The final will be comprehensive. The midterm from 2021 will be posted on Canvas so you have some sense of what to expect.

Other Policies

We respect and uphold University policies and regulations pertaining to the observation of religious holidays; assistance available to students with physical, visual, hearing, and other disabilities or impairments; plagiarism; racial, ethnic, gender, sexual orientation, or religious discrimination; and all forms of harassment.

If you have (or suspect you have) a learning or other disability that requires academic accommodations, you must contact the Student Disability Access Center (<https://www.studenthealth.virginia.edu/sdac>) as soon as possible, and at least two to three weeks before any assignments are due. We take learning differences very

seriously and we will make whatever accommodations you need to be successful in this class. However, they must be properly documented by the SDAC and we must have enough notice to make appropriate arrangements.

Plagiarism, or academic theft, is passing off someone else's words or ideas as your own without giving proper credit to the source. You are responsible for not plagiarizing and are expected to abide by the University of Virginia Honor Code (see <https://honor.virginia.edu/academic-fraud>). Note that we employ plagiarism/AI detection software to help ensure the integrity of the course.

Use of generative AI in this course is considered plagiarism. Or, as Chat GPT puts it: “As we embark on this learning journey, I kindly remind all students that the use of generative AI tools is not permitted for the completion of assignments, projects, or any other course-related activities. Our goal is to foster your personal growth, critical thinking, and creative expression. Embracing the challenges presented in this course will significantly contribute to your skill development and understanding of the subject matter. Your unique perspectives and efforts are highly valued, and I encourage you to engage with the material authentically. Let's work together to create an enriching and equitable learning environment for everyone.”

I record my lectures for use by students who are unable to attend due to serious illness or relevant SDAC accommodations. If you need access to a lecture for one of these reasons, please contact me and I will give you access. Recordings will be deleted when no longer necessary, and may not be reproduced, shared with those not enrolled in the class, or uploaded to other online environments. Per UVa policy, students are prohibited from recording of any kind unless authorization is obtained from the instructor.

Laptops in Lecture

A growing body of research demonstrates that multitasking decreases comprehension and performance, that being able to see multitasking degrades *other* students' performance, and that taking notes by hand increases comprehension and performance. Therefore, the use of laptops and other electronic devices is *strongly discouraged* during lecture.

However, I am aware that some students have a learning or other disability that precludes you from taking notes effectively by hand, and others simply prefer to use an electronic device despite the evidence. Therefore, I will designate a “laptop-optional” section of the lecture hall. Laptops and other electronic devices will be allowed *only* in this section of the lecture hall. I expect that electronic devices will be used only for taking notes during lecture—please don't distract yourself or those behind you with other things.

Section rules on the use of laptops and other electronic devices are at the discretion of your TA.
